Health Care Reform's Implications For Employers, Health Plans & Employee Benefits Practitioners

Cynthia Marcotte Stamer will discuss "Health Care Reform's Implications for Employers, Health Plans and Employee Benefits Practitioners" at the June 9, 2010 meeting of Houston WEB.

Narrowly passed by Congress in March after a year of contentious debate, the comprehensive health care reform legislation imposes a complex array of reforms impacting employment based health plans, employers, and the insurers and other vendors and administrators of these programs. Ms. Stamer will explore key elements of these reforms impacting employers and employment based health coverage and their implications for employers, employment based health plans, and employee benefits and other attorneys providing advice about these arrangements.

Ms. Stamer is nationally recognized for more than 22 years of work with employer and other health plan sponsors, fiduciaries, administrative and other service providers, insurers, and other clients on health benefit program and product design, documentation, administration, compliance, risk management, and public policy matters. The publisher of Solutions Law Press, Ms. Stamer also publishes, conducts training and speaks extensively on these and related concerns for the ABA, the Bureau of National Affairs and many other organizations. Please join us for what promises to be a most interesting discussion.
